### IT Recycling and Disposal

When companies move offices there is often a need for IT and computer recycling. The most cost effective way for you to undertake this disposal is for MFX Relocations to remove it as part of the move project. Using 3rd party processors, we can fully recycle PC's, Servers, Printers, Monitors, Keyboards and Photocopiers.

MFX Relocations is a licensed waste carrier. We will process this equipment with our 3rd party recycling suppliers and appropriate certificates are issued. Our partners are fully registered under the WEEE directive.

The Waste Electrical and Electronic Equipment Directive (WEEE) aims to minimise the impacts of electrical and electronic equipment on the environment during their life times and when they become waste. It applies to a huge spectrum of products. It encourages and sets criteria for the collection, treatment, recycling and recovery of waste electrical and electronic equipment.

By selecting MFX Relocations to remove your unwanted IT before or after an office move, you are ensuring you meet your social and economic responsibilities.
